## PROFESSIONAL SUMMARY

Detail-oriented QA Analyst with 3 years of experience in manual and automated testing, combined with hands-on data analysis and reporting. Proven ability to validate complex datasets, automate test and reporting workflows, and collaborate cross-functionally to improve system reliability. Proficient in Playwright, Postman, QuickBase, SQL, and TypeScript. ISTQB Certified.

## EXPERIENCE

### Quality Assurance Analyst

Innovative Business Concepts, New York, NY

Sep 2023 - Present

- Designed and executed comprehensive test plans and cases based on project requirements, identifying and documenting 100+ defects to improve project reliability.
- Conducted API testing on multiple endpoints using Postman and Playwright, validating data accuracy and response time for complex wildcard and filter functions, ensuring 100% compliance with SLAs.
- Performed regression and data validation testing, ensuring daily and weekly reports were accurate prior to stakeholder delivery.
- Developed and maintained dashboards in QuickBase, automating weekly reporting and reducing manual processing time by 30%.

### Data Analyst

Innovative Business Concepts – ACS Call Center Project, New York, NY

January 2024 – June 2024

- Collaborated with business stakeholders to analyze NYC Administration for Children's Services (ACS) call center operations, translating complex workflows into clear current-state and future-state process flows.
- Retrieved and analyzed call center operational data to identify process bottlenecks, performance gaps, and service pain points across high-volume workflows.
- Designed and built data-driven dashboards in QuickBase to visualize call trends, workload patterns, and key operational metrics, improving transparency for leadership review.
- Delivered actionable recommendations based on analytical findings, enabling process improvements and more informed decision-making by business teams.

### Software Engineer Intern

Distro AI, New York, NY

June 2023 - August 2023

- Built and tested web automation scripts using Playwright and Crawllee, enabling automated data extraction from multiple web sources and improving data pipeline efficiency by 40%.
- Developed and maintained TypeScript and Next.js components integrated with MongoDB, enhancing system functionality and code maintainability.
- Participated in code reviews and implemented improvements, increasing code quality and reducing staging defects by 20%.

## EDUCATION

B.S., Computer Science, Grove School of Engineering, City College of New York.

June 2023 GPA:3.51

## SKILLS

**Testing:** Manual, Functional, Regression, API Testing; Test case design, bug tracking, and defect lifecycle management;

**Programming Languages:** TypeScript, JavaScript, SQL, Python, HTML, CSS

**Tools:** Playwright, Postman, Jira, TestRail, QuickBase, Salesforce, Git, GitHub, VS Code, Excel

**Certifications:** ISTQB Foundation (CTFL), ISTQB Acceptance Testing (CT-AcT)

**Languages:** English (Fluent), Cantonese (Native), Mandarin (Native)
